

SECURE YOUR INFRASTRUCTURE

World Wide Technology delivers the tools, technology and expertise you need to secure your entire IT infrastructure. We hold the coveted Cisco Masters Certification in Security, which means we have both the advanced technology skills and demonstrated customer success in designing, deploying and providing services for the most sophisticated security solutions available today. Turn to WWT when you're ready to:

PROTECT CRITICAL ASSETS: Block attacks before they can damage your network or reach client data with a complete and integrated approach from WWT. We not only provide customized threat detection solutions, malware scanning and data loss prevention, but can fully evaluate your infrastructure to find and eliminate vulnerabilities as well as help you develop and implement the security policies and procedures necessary to protect your increasingly valuable data and computing assets.

ENHANCE VISIBILITY AND CONTROL: Protect your network against malicious threats while gaining visibility into and control over users with help from WWT. We're here to help you upgrade your network defenses with firewalls, virtual private networks, access control, intrusion prevention, security monitoring solutions and more. By integrating best-of-breed security solutions throughout your infrastructure, you can easily track who has access to what data, control access to sensitive information and applications while maximizing operational productivity.

ENSURE COMPLIANCE: WWT has the in-depth understanding and experience to help your agency operate effectively while maintaining a secure, compliant environment. Whether you need network- and host-based intrusion prevention capabilities, automated auditing and reporting to meet regulatory requirements or guidance regarding the best ways to protect sensitive patient, financial or customer information, WWT has the answers and expertise to give you greater peace of mind along with the right technology to meet shifting regulatory requirements.

PROTECT CRITICAL DATA ASSETS AND SECURE YOUR INFRASTRUCTURE.

CORE CAPABILITIES

- Network Compliance Management
- Vulnerability & Risk Assessments
- Compliance & Architecture Review
- Security Application Optimization
- Policy Development & Management
- Data Loss Prevention
- Firewalls
- Virtual Private Networks
- Intrusion Prevention
- Email & Web Security
- Intruder Detection Services
- 24x7 Support

KEY BENEFITS

- Enhance Visibility
- Protect Data Assets
- Ensure Compliance
- Decrease Complexity
- Lower Total Cost of Ownership

TURN TO THE EXPERTS

Because of our Cisco Master Security Certification, 14 years of security industry expertise and longstanding partnerships, WWT is the ideal partner to help you meet the increasing and ever-changing security challenges that continually threaten your IT infrastructure. Contact us today to learn more.

WHY WWT?

WWT provides a unique blend of proven technical expertise, scalable solutions and flexible service level agreements to our clients.
