

A MOVING EXPERIENCE IN HEALTHCARE

Can you imagine expanding your outreach so patients have access to your specialty any time anywhere? What if you could increase the number of patients each physician sees by two-fold? And how about enhancing quality and access of care at the same time?

Cisco TelePresence® creates life-like face-to-face experiences over the network — empowering you to better collaborate, speed decisions, increase patient intimacy, scale limited resources and compress project timelines like never before. And now, World Wide Technology (WWT) offers a convenient and cost-effective way for you and your patients to get even more value from Cisco TelePresence.

Designed with the healthcare industry in mind, WWT's TG500 adds mobility to Cisco TelePresence. The portable, storable and easily deployable solution moves freely on a customized cart while preserving the superior video, audio, and experience quality of Cisco TelePresence. The TG500 lets your staff truly connect with colleagues, partners, patients and more, so you can improve decision making capabilities and streamline operations across your organization.

BOTTOM LINE RESULTS

Many organizations are benefiting from the measurable communication and collaboration advantages Cisco TelePresence delivers, such as reduced travel related expense, compressed project timelines and increased availability of expensive resources. Transform your healthcare organization by optimizing both communication and operational productivity with the TG500 for Cisco TelePresence.

The enhanced flexibility of the TG500 for Cisco TelePresence solutions opens a whole new world of applications. Learn more at wwt.com/tptg500.html.

By leveraging our proven Cisco expertise, Master Unified Communications and Security Specializations and Gold Certified Partnership, we can recommend the best TelePresence solutions for your healthcare organization and provide Cisco's entire portfolio of voice, video, mobility and unified communications solutions at the very best prices.

EXPAND YOUR PRESENCE

TG500 for Cisco TelePresence:
The new TG500 comes complete with everything you need to extend the true value of Cisco TelePresence:

Equipment – A movable, storable and easily deployable solution with the Cisco TelePresence System 500 on a customized cart.

User Training – Helpful information to ensure an optimized and consistent user experience, including optimized positioning, lighting effects, methodologies for moving between prepared facilities and planning for the Cisco TelePresence experience.

Peace of Mind – Network validation for all locations where a movable Cisco TelePresence solution will be deployed.

Branding – A printed placard identifying the unit as "TG500 for Cisco TelePresence."
