

Keep watch over the clinical workplace.

In the constant whirl of the clinical workplace, it's tough to keep up with staff and patients, let alone valuable medical devices. It's no wonder that hospitals often lose 15 percent or more of their assets each year! Let WWT and AeroScout® deliver the tools and technology you need to:

- **Locate & Prevent Theft of Medical Devices**
- **Improve Asset Utilization Rates**
- **Monitor Equipment & Maintenance Schedules**
- **Simplify Inventory Management**
- **Control & Optimize Workflow**
- **Integrate Status Info into Existing Applications**

Designed specifically for the healthcare industry, WWT's visibility solutions utilize AeroScout's Wi-Fi-based active radio-frequency identification (RFID), real-time location (RTLS) and telemetry technology to help hospitals around the world locate and track people and assets. AeroScout is the only Wi-Fi location solutions provider endorsed by the American Hospital Association, so you can be assured that you'll get a complete, proven, enterprise-class visibility solution spanning all hospital departments.

With WWT and AeroScout, you can monitor medical devices and people from a simple Web interface. And WWT and AeroScout's visibility solutions enable a broad set of applications that empower daily decision making and provide a fast return on investment.
