

TURN TO THE EXPERTS

World Wide Technology (WWT) and Sun Microsystems deliver the technology and expert support you need to align your IT investments with your top priorities.

Using best practices and field-tested methodologies, we can assess your entire IT infrastructure and help you design systems that deliver increased productivity, scalability, flexibility and better control of your assets. Turn to the experts at WWT and Sun™ when you want to:

Simplify & Standardize: Simplify and standardize your network and data center with Sun products, technologies and services from WWT that offer ease of deployment, better resource utilization, higher levels of dependability and lower total cost of ownership throughout the life of your systems.

Build in Security & Compliance: Ensure system security and compliance throughout your enterprise with Information Lifecycle Management (ILM) and by building Identity Management (IdM) into everything you do. Sun and WWT can help.

Optimize Your Data Center: Virtualization and server consolidation are two key tools that help IT organizations do more with less. Improve the ROI of your data center assets and take on skyrocketing energy costs with high-performance energy-efficient Sun technology. Who knew “going green” could be so good for business?

ALIGN YOUR IT INVESTMENT STRATEGY WITH YOUR TOP PRIORITIES.

WWT AND SUN DELIVER:

- Data Management Solutions
- Secure IT Network Services
- Business Compliance Solutions
- High-Performance Computing
- Dynamic Infrastructure Solutions for Web Services
- Certified IT Experts & Training
- 24x7x365 Support

KEY BENEFITS

- Improve Productivity
- Gain IT Expertise
- Save Time and Resources
- Ensure Compliance
- Optimize IT Assets and Infrastructure

A RECIPE FOR SUCCESS

Start with your current business problems and add a dash of opportunity. Fold in top-tier technology from Sun Microsystems. Top it off with strategic insight and support from World Wide Technology.

Best of all, you don't have to do it on your own. WWT provides the best people, processes and partners to help you address your most pressing business problems and capture new opportunities.

TURN TO THE EXPERTS

WHY WWT?

WWT provides a unique blend of proven technical expertise, scalable solutions and flexible service level agreements to our commercial enterprise and federal clients. We take an informed, consultative approach to developing, deploying and maintaining the right advanced technology solutions for you and your budget.

A POWERFUL PARTNERSHIP

World Wide Technology has been a Sun Microsystems partner since 1992. As a Sun Executive Partner, WWT designs, implements and manages solutions utilizing innovative Sun products to – and our powerful partnership works to your benefit.

Because of our familiarity and expertise with Sun technology, WWT's certified experts can configure, install and maintain the most flexible and effective solutions for your enterprise or agency. Moreover, we offer the complete Sun Microsystems portfolio at low prices.

AN IMPRESSIVE PORTFOLIO
