

The right technology makes it possible. The right people make it happen.

Founded in 1990, World Wide Technology has grown from a small startup to a world-class organization with over \$2 billion in revenue and more than 1,000 highly trained employees.

The secret of our success? We provide our customers with a lot more than technology. WWT brings to market a unique blend of people, processes and partnerships to help solve the unique challenges that face the ever-changing healthcare industry.

WWT is the right choice for healthcare organizations with experience in both product fulfillment and professional services. In the last two years, WWT has worked with more than 100 health-care clients nationwide, providing them over \$75 million in IT products and services.

As a leading provider of IT security, unified communications, wireless and datacenter solutions, WWT professionals are well trained in a variety of areas that impact healthcare including HIPAA privacy and security regulations. Through our experience, training, industry involvement and inclusion in Cisco's Industry Solutions Partner Network (ISPN), WWT takes a proactive approach at understanding and offering solutions that address the business challenges that healthcare organizations face daily.
