World Wide Technology gets \$5.2 million Army contract

[World Wide Technology](#) was awarded a \$5.2 million contract from the U.S. Army for some networking components for troops in Iraq, the Department of Defense said Monday.

The contract is for 200 lines of interchangeable networking components for the Multinational Force-Iraq and Multinational Corps-Iraq. Work will be performed at Camp Victory in Baghdad through April 15.

World Wide Technology in Maryland Heights, Mo., distributes information technology products and services. It is the largest African-American-owned business in the United States.
