

## CISCO® AUTHORIZED TRAINING

WWT offers Cisco Authorized Training covering Cisco core technologies, as well as Advanced Technology training in areas such as Security, Unified Communications, Storage Area Networking and Wireless LANs, leveraging Cisco intellectual property and Certified Cisco Systems Instructors. In addition to delivering expert training solutions, WWT provides the flexibility you need with:

**Custom Training:** WWT develops and delivers customized training solutions for our customers. So if your organization requires a specialized training course, or an entire training solution, WWT will create and deliver a training program that is built to your specifications.

**Flexible Delivery Options:** By utilizing a network of partners, WWT is able to offer classroom training via our public enrollment schedule at locations nationwide. Or, for groups of five or more, WWT can provide private course delivery where we bring our expert instructors, curriculum and equipment to your location and customize the class to exactly fit your training requirements.

**Training Bundles:** WWT understands that it is often difficult for an organization to forecast training needs and employees' schedules. WWT has created packaged Training Bundles, which allow you to purchase training vouchers at a discount up front and determine scheduling later. This option provides you with the greatest flexibility to accomplish your training objectives and ensure your organization receives training in the future.

MAXIMIZE YOUR NETWORK INVESTMENTS WITH CISCO® AUTHORIZED TRAINING FROM WORLD WIDE TECHNOLOGY

## FLEXIBILITY AND EXPERTISE

Get the most out of your Cisco network investment with Cisco Authorized Training from WWT. WWT, a Cisco Certified Gold Partner, utilizes expert staff to provide your company with the most comprehensive training solutions available, while adapting to meet your individual needs.

### CISCO LEARNING CREDITS

Your Cisco network investment is only half the story. Optimizing it is the other half. Thanks to WWT, purchasing and obtaining the training you need to get the most out of your Cisco network investment and gain greater productivity for your organization is easier than ever.

Cisco Learning Credits are a form of pre-paid training and offer the unrivaled ability to purchase, redeem and manage Cisco authorized training to fully maximize your Cisco network investment. Learning Credits may be added to your purchase order when ordering other Cisco products or purchased separately.

### WHAT MAKES WWT DIFFERENT?

The WWT approach to training is to combine both academic and practical knowledge into a blended learning solution. Our Cisco-certified training staff includes implementation engineers that supplement the authorized curriculum with their real world experiences. All WWT instructors undergo the rigorous Cisco Certified Systems Instructor (CCSI) certification process and are experts in their related technologies.
