

THIS IS THE WORLD WIDE WAY

Welcome to WWT. This is a guide to all the resources available to aid you in having a successful project.

Explore and access resources like WWT Learning Paths, Training Opportunities, and Personal Development tools available to you!

[Advanced Technology Center \(ATC\) Labs](#)

Access our collection of physical labs. These labs have been virtualized to create a collaborative innovation ecosystem to design, build, educate and deploy innovative technology products, integrated architectural solutions and digital business outcomes for our customers, partners, employees and communities around the globe.

[Udemy](#)

Fast-track your learning with access to thousands of free courses through Udemy. Classes range from highly technical, certification preparation, soft skills and more.

[Learning Paths](#)

WWT learning paths provide hands-on experiences, market research, and relative business value content through articles, videos, and labs.

[OEM & Partner Learning Opportunities](#)

Contact your Strategic Engagement Manager to learn more about the training opportunities provided by our OEM and Partners

Vision

To be the best technology solution provider in the world

Mission

To create a profitable growth company that is also a great place to work FOR ALL
