

WWT India Private Limited – Takeback and Recycling of E-Waste

“E-waste” is electronic equipment such as phones, computers, laptops, printers or even their parts that have reached the end of their useful life and are ready to be discarded.

In India, WWT has partnered with a Producer Responsibility Organisation called Karo Sambhav to help manage recycling and takeback of e-waste.

Where and how can you recycle your e-waste?

To recycle or arrange for the takeback of e-waste from products purchased from WWT, all you have to do is send an email to engage@karosambhav.com that identifies the type and amount of e-waste, as well as your city. You will receive a reply within 48 hours of your email with further information.

You can also visit Karo Sambhav’s collection points to drop off the e-waste or get more information on recycling e-waste.

Or, you can call Karo Sambhav’s toll-free number at 1 800 2121 434.

Important points about recycling e-waste

- Dispose your e-waste only with responsible PROs/ Producer Take Back channels.
- Do not dispose of e-waste in your home dust-bins or with other municipal waste.
- Batteries, chargers and other accessories can also be recycled at these collection points.
- Make sure that all your important personal and professional data you wish to keep is backed-up and removed from your device. Don’t forget to remove any SIM or memory cards from the device. World Wide Technology is not responsible for any data remaining on your e-waste or any data loss or data breach resulting from takeback or recycling of e-waste.
