

**A Prayer for WWT Family and Friends,
The United States of America and Our Entire World**

Author: Rick Pina

Heavenly Father, we come to You to find comfort and help in the time of need. We look to You for hope and peace. We look to You for courage and strength. We rely on Your grace for all things. Your amazing grace enables us to endure and overcome this season.

We lift up every member of the WWT family, our customers, our partners, our friends and all their children, and their children's children. We pray for a hedge of protection to be 'round about them. We give angels charge over them, to keep them in all their ways. May no evil befall them and may they remain safe from all harm during this challenging time. May their souls be at peace, their hearts be at rest and their minds be sound and stable. May they awaken every morning with a spring in their step, a song in their heart, and a smile on their face. May they be unchanged and unphased by the changing and uncertain times we are in.

And finally, Father, we lift up the United States and our global community to you. We ask You to bless the medical professionals who are serving those who have been impacted by COVID-19. May you shield and protect them as they serve humanity with clean hearts and pure hands. May You give us a cure, may You show the way forward, and may we never lose hope.

We are never hopeless because we are never helpless! You have promised to never leave us, forsake us, or turn Your back on us. You are with us everywhere we go. Your presence brings with it Your peace, Your power, and Your love. May Your love be on display in us and through us every day. I pray this by faith. In Jesus' name. Amen!
