

## Learn Valuable IT and Cyber Skills through Cisco Networking Academy

Enroll in online technology courses to explore, develop and validate your skills. Offered to Soldiers, Army civilians, contractors and veterans.

### You bring valuable Army training and experience to the workplace

As a part of Cisco's corporate social responsibility, Networking Academy's goal is to transform the lives of learners, educators, and the communities through the power of education and career opportunities. We have helped more than 12.7 million people in 180 countries over the past 20 years.

Critical thinking, problem-solving and teamwork are needed everywhere. So are technology skills. Register these self-paced courses by clicking the links below:

Open RAN blueprints will accelerate operators' time-to-revenue for a rapid 4G/5G upgrade path. Instead of taking a year or more to devise their own system, operators can use WWT's Next-Generation Factory Model to gain a head start, enabling them to get to market faster.

Military personnel bring a level of maturity and self-reliance that is invaluable to employers. When you take the benefits and character-building of military training and combine those with the depth and quality of Cisco Networking Academy courses, you have the ingredients for a competitive and confident professional.”

Lt. Col. Bill Philbrick, U.S.A. Retired, Former IT Director for the U.S. Military Academy (West Point) and Cisco VETS Group Co-Founder
