Through NETCENTS-2P, World Wide Technology is pleased to provide the U.S. Air Force, Department of Defense and affiliated federal agencies with a vast array of innovative, world-class IT equipment, solutions and services designed to meet and exceed enterprise infrastructure goals.

ACCESS ADVANCED TECHNOLOGY

NETCENTS-2P is an Indefinite Delivery/Indefinite Quantity (ID/IQ) contract vehicle that enhances the U.S. Air Force's operations/NetCentric capabilities and covers a wide range of integrated advanced technology services and solutions, including networking equipment, servers and storage, multimedia, software, peripherals, and identity management and biometric solutions.

LOWER COSTS AND STREAMLINE PURCHASING

NETCENTS-2P leverages commercial off-the-shelf (COTS) products to support the Internet Protocol (IP) Network and bring all IT systems into compliance with the U.S. Air Force enterprise cyberspace architecture. There are no service fees associated with this contract and WWT offers lower prices, along with a streamlined ordering process, for state-of-the-art commercial hardware, software, services and solutions.

END-TO-END SUPPORT AND SECURE SERVICES

Aside from providing direct access to advanced technology, WWT provides end-to-end technical support as well as secure logistics, warehousing and supply chain services to maximize and protect your NETCENTS-2P investments.

LEADING TECHNOLOGY AND EXPERTISE

World Wide Technology (WWT) has a long history of supporting the federal government as an award-winning technology integrator and is proud to include NETCENTS-2 in its well-established list of purchasing vehicles. WWT offers our technical expertise, advanced technology solutions, strategic partnerships, supply chain capabilities and Advanced Technology Center to help you meet your mission-critical objectives.

ABOUT WWT

Through its culture of innovation, World Wide Technology (WWT) inspires, builds, and delivers business results, **from idea to outcome.**

Our customers have hands-on access to cutting-edge big data, cloud, collaboration, compute, mobility, networking, security, software and storage products in our Advanced Technology Center; technical expertise from our expansive team of engineering resources; and accelerated global product delivery, powered by a sophisticated supply chain management infrastructure.

By working with a financially strong, privately held systems integrator with more than \$7B in annual revenue that ranks among the top tier of partners with Cisco, Hewlett Packard Enterprise, HP, EMC, NetApp, VMware, VCE and F5, our customers realize the benefits of saving time and money while significantly minimizing risk.
