

STAFFING SERVICES

Personalized Strategic Staffing

KEY BENEFITS

- Wide Range of Professional Skill Sets
- Full-Service Engagement Team
- Customized On-Boarding and Ongoing Support
- Weekly Timesheet and Status Report Management
- Flexible Engagement Terms

World Wide Technology (WWT) provides personalized strategic staffing services that extend well beyond typical staff augmentation. We deliver pre-screened, trained IT professionals, ready to meet your mission-critical objectives using a proven, structured approach to help you:

MAKE BETTER MATCHES

We know that staffing isn't just about filling gaps. We work with you to pinpoint your unique requirements and take time to understand your department and organizational culture to make better matches that last. You'll receive an in-depth Requirements Analysis once the WWT Account Team has done its groundwork, which will serve as the basis of our staffing engagement.

EXPAND YOUR SEARCH

Our in-depth candidate discovery process, global resources and hybrid resourcing model expand your search, speed discovery and allow us to find the most qualified candidates available fast. WWT leverages both internal and external resources, including our own pool of consultants and engineers, as well as those of our partners and subcontractors, to fulfill your resource requirements.

MAKE INFORMED DECISIONS

WWT performs multiple professional and technical screenings of all candidates before presenting anyone to you. All candidates are interviewed by engineers and technical specialists with matched or higher skill levels. Your comprehensive evaluation of candidates includes a resume, technical analysis and reference checks, so you can make an informed final hiring decision.

GET THE MOST QUALIFIED CANDIDATES

WWT is committed to finding you a candidate with the right attitude, skill set and ability to adapt as you explore and implement new technologies. We deliver only the most qualified candidates with a wide range of skills, so you can expand your team with expertise you need, be it an Architect, Engineer, SME, Project or Program Manager, Technical Specialist, Operations or Support Professional, Oracle SAP expert or Application Developer.
